1 Major Changes

There are no major changes.

2 Progress

We figured out how to position the head using the ar sys package and are optimizing the set up.

3 Relation to Milestone

Head tracking is mostly wrapped up and we are moving on to data generation for the ray tracing.

4 Surprises/Future Milestone Revisions

No surprises.

5 Resources Needed

I will need to print out the tag mat on a poster sized paper in order to proceed to the data generation stage.
